## Product Information

Polycarbonate-Enclosures MBX

# Excellent protection in harsh environments.

## Polycarbonate-Enclosures MBX

MULTI-BOX MBX is one of the most durable standard plastic enclosure range on the market, specifically designed for use in industrial and outdoor applications. The three versions of the enclosure series cover the diverse requirements of demanding applications, such as shipbuilding, agricultural engineering or wind power industry. The enclosures offer an excellent protection for components and sensitive electronics, even when demands are extremely high. With a seamlessly foamed 2-component polyurethane gasket, all MULTI-BOX MBX types achieve protection class IP69K. The enclosures can easily withstand high pressure water jets,

steam jet cleaning or short-term flooding. They are therefore ideally suited for use in vehicle construction, agricultural engineering or plant construction. The extremely durable version MULTI-BOX MBX PRO is produced from a newly developed impact-resistant and weather-resistant polycarbonate material, which meets self-extinguishing levels according to UL94V-0/5VA. The MBX PRO series is superior to all aluminium enclosures, especially in applications with an increased risk of corrosion. The 10 sizes are compatible with the well-known standard aluminium enclosures.

### FEATURES

- Best protection for all electronic components due to absolute tightness (protection class IP69K)
- Weather resistant (UV stabilized UL F1)
- Absolutely corrosion resistant
- Self-extinguishing (UL 94V-0/5VA) MBX PRO
- Impact resistant (IK10) even at temperatures below 0 °C MBX PRO
- Railway approval according to DIN EN 45545 MBX PRO

### PRODUCT ADVANTAGES

- Compatible with standard aluminium enclosures
- Existing installations with conventional aluminium enclosures can easily be replaced by an MBX enclosure
- Low weight despite extremely high stability
- Special colours available on request
- Fixing channels outside the sealing chamber
- Captive cover screws made of stainless steel
- Thread bushes made of nickel-plated brass MBX PRO
- Innovative sealing concept for reliable function and high degree of protection

**MULTI-BOX MBX PRO**

Customised silk screen printing on a MULTI-BOX MBX PRO enclosure. Individual mechanical CNC machining is carried out according to customer drawings.

**MULTI-BOX MBX BASIC**

Various MULTI-BOX MBX Basic enclosures with customised machining. We transform our standard products into your bespoke enclosure solution.

**MULTI-BOX MBX BASIC-K**

Version MULTI-BOX MBX BASIC-K with transparent lid. Your electronics and components can be clearly viewed safe and protected.
